A cross-sectional view of a multi-layered structure 30. The structure consists of a top layer 22, a middle layer 24, and a bottom layer 26. The top layer 22 is the thinnest, followed by the middle layer 24, and the bottom layer 26 is the thickest. The layers are separated by distinct interfaces. A bracket on the left indicates the total thickness of the structure is 30. A bracket on the right indicates the thickness of the top layer 22 is 20. The middle layer 24 has a thickness of 24, and the bottom layer 26 has a thickness of 26. The layers are separated by distinct interfaces.
